BURIAL ACTIVITY REPORT

Period Covered – 01/01/1800 to 05/29/2014

The “Burial Activity Report” was created using the computer software we use to inventory the Locust Hill Cemetery. This report is an alphabetized listing of approximately two thousand three hundred (2300) burials. We have compiled our information based on engravings on the head stones, old burial reports on file at the town clerk’s office and obituaries. This process is ongoing and we will be updating this report annually.

When recording the dates of birth and death our software requires all dates to be recorded in a month/day/year format. In cases where we did not have the complete information we substituted January (01) for the month 01 for the day. If all are blank we have no dates. If you are aware of dates we are missing, please contact us by mail, phone or email with the correct information.

Located in front of the vault in our cemetery you will find a map showing the sections, lots and graves. There is a duplicate of the “Burial Activity Report” in a notebook to help you locate your relatives and friends.
