One thing I meant to say the last time I talked to you. Have you ever checked the bible records at DAR for Carpenter/Guyer families? I did check at Albany but didn't find yours.

Several years ago I did a search on the Palmer family in Delaware County but didn't find any bible records for them in Albany. Last June my friend who's quite active in DAR gave me some old genealogical pages she had torn out of old DAR magazines. I was just looking through them when the name Thomas B. Palmer just seemed to leap at me. It was the family I had been researching and it gave Thomas Palmer's parents and his mother's maiden name. This record had been turned into Washington by someone in Virginia - the State Library only has DAR records turned in New York daughters. It just could be possible your records went with one of the other children and they have been turned in from another state. Just a thought.

I do thank you for being so patient with me. I don't usually work this way but sometimes it can't be helped. Good luck on your research and if I can be of any further help, please contact me.

Sincerely,

Shirley Hegeman

Mrs. Iseminger, I had completed my five hours initial research when I started this letter on October 30. On October 31st I spent two additional hours at the State Library checking their records.

I don't know how much further I can go in Delaware County. I would like to get down and check the Dryden Brook Cemetery, or at least contact the Town Clerk and see what is recorded. The girl who shares my job lives in Downsville, where the New York State Water Authority is located and where all the graves that were moved when the Reservoir was put in, are listed on card files. She has offered to check these out for me, but there's no sense her doing this until Dryden Brook is ruled out.

I would appreciate hearing your thoughts on this research. I especially enjoy it when I'm able to find so much on a family. I look forward to hearing from you.

Sincerely,

Shirley Hegeman (Mrs. John)
